Re: Rainbow Park

We propose the following

**Basketball Court Color Coat System**

1. Clean surface with high pressure compressed air to remove loose dirt and debris
2. Fill birdbaths with crack patch binder to level of existing surface with multiple applications and grind smooth
3. Apply two coats of sand filled acrylic emulsion resurfacer
  - a. 8-10 lbs. silica sand added per gallon of concentrate material
  - b. Coverage: .05-.07 gallons per square yard per coat
4. Apply two coats of latex acrylic paint
  - a. **Color to be selected by owner**
  - b. 6 lbs. silica sand added per gallon of concentrate material
  - c. Coverage: .05 gallons per square yard per coat
5. Reline per NFHS standards

**Total    \$12,000**

**Notes:**

If possible this work is to be completed in the fall of 2024. If scheduling does not allow for this fall we can complete the work in the spring of 2025 weather permitting.

Thank you,

Eric Hicks
