Clmbr Melovidov moved to approve Emergency Ordinance 22-97, An Emergency Ordinance of the City of Saint Paul Regarding Protective Measures to Prevent the Spread of COVID-19 Throughout Saint Paul Island, seconded by Clmbr Edenshaw. There were a couple proposed changes in the Emergency ordinance due what was recently seen with the outbreak. Over the counter at home tests should be taken within 24 hours of traveling to Saint Paul Island. Post travel test done at 24 hours and 5 days. This is to help catch anyone that may test positive after they arrive on Saint Paul. Hopefully these changes will help prevent another outbreak in the community. There hasn't been an impact on the health Center at this time. That is one of the main concerns, considering how remote we are and the impact the virus can have on the staff. There has been a lot of testing here at Public Safety, a lot of at home test have been submitted to the snpcovid19 email which has helped with the contact tracing.
