

## Memorandum

To: Princeton City Council

From: Dylan Donner

CC: Nancy Campbell

### Employee Resignations

David decided to end his employment due to his fears of catching Covid-19. David retired early from Cambridge hospital after over 30 years employment due to the five positive cases at the hospital. He decided that the risk of potentially catching Covid-19 is too high due to the volume of traffic in our store.

Stephane resigned after she was offered her old position back at Target in the IT department. They asked her to start immediately the following Monday.
