
MEMORANDUM

TO: Mayor and City Council
FROM: Wastewater Manager Chris Klinghagen
SUBJECT: SCADA System
DATE: June 25, 2020

We received 2 quotes for the lift station SCADA upgrade. This planned upgrade is in the 2020 CIP with an amount of \$100,000.

One from In-Control, who has done all the SCADA at the WWTP in the past, and one from Total Control. In-Control was \$82,500, and Total Control was \$48,275.

When comparing the two quotes, In-Control's quote was for better quality of equipment, with about a \$32,520 difference in the equipment side of the quote.

If that higher quality equipment was added to Total Control's quote, it would bring the quote up to \$80,795 for a difference of \$1,705.

It is staff's recommendation to award the project to In-Control based on the fact that they have worked on the city's SCADA system before and know it well.
