

EXECUTIVE SUMMARY

Recommendation that the Broward College District Board of Trustees authorize this reimbursement grant with the City of Coconut Creek for the purchasing of hygiene items for the Seahawk Marketplace Food Pantry at North Campus. Revenue (in the form of a reimbursement): \$20,000.00

Presenter(s): Janice Stubbs, Vice President of Student Services

What is the purpose of this contract and why is it needed?

The purpose of this reimbursable grant is to help fund the purchase of basic hygiene items for the Seahawk Marketplace Food Pantries. These funds are needed because there is no funding allocated for the purchasing of hygiene items. When students visit the Seahawk Marketplace Food Pantries, they can get food for free (funded by a Florida Blue grant), and also hygiene items. Unlike the food items which have funding, we rely on grants and donations to fund hygiene items. According to the latest student survey, 42% of our students experience housing insecurities with 14% experiencing homelessness. For these students, basic hygiene items are not readily available due to not living in a steady household(they live in their cars, someone else's house, shelters, etc) and also due to cost. Financial obstacles are cited as the top obstacles our students face when trying to secure resources that will help them improve academically.

What procurement process or bid waiver was used and why?

The process followed was the creation of this Minute Traq item to include an agreement and grant award letter which was to be reviewed by legal.

The procurement process followed was per the recommendation of the procurement department and Rabia Azhar. The process was supported by Dean of Business John Thornton.

Is this a budgeted expenditure from the budget established at the last June Board of Trustees meeting? No

What fund, cost center and line item(s) were used?

n/a

Has Broward College used this vendor before for these products or services?

This is not a vendor but the City of Coconut Creek. The City of Coconut Creek will reimburse the college \$20,000 for the purchase of hygiene items once the purchases have been completed and receipts have been furnished to The City. The City approached us offering this grant.

Was the product or service acceptable in the past?

n/a

Was there a return on investment anticipated when entering this contract?

This past academic year, the food pantries averaged about 1,000 student visits per month. Hygiene items tend to run out very quickly even after setting limits on the amount students can take. We expect for all items purchased to be quickly used by our students.

Was that return on investment not met, met, or exceeded and how?

Exceeded. We tend to run out of hygiene items rather quickly, and because there is no consistent funding for these items, shelves are often empty and students who visit the pantry can't obtain hygiene items during those times.

Does this directly or indirectly feed one of the Social Enterprise tactics and how?

Yes. Improving the college experience.

Did the vendor amend Broward College's legal terms and conditions [to be answered by the Legal Office] if the College's standard contract was used and was this acceptable to the Legal Office?

The General Counsel's office has reviewed the agreement and any deviation to the College's standard terms has been deemed acceptable.
