Yes, Student Life falls under Student Services which receives Fund2/Student Activities and Service Fees Allocation. This event will be paid for out of the annual allocation for Student Life Programming.

Yes, we anticipate a return on investment. Student Life evaluates ROI through metrics such as retention rates, enhanced student experience, increased motivation, and strengthened community building.

Was that return on investment not met, met, or exceeded and how? We anticipate that the ROI will be met. According to our 23-24 data, students engaging in at least one event are retained at a higher rate than those who do not participate in events. Students who attend our events also have a higher level of course success than those who are not involved. Course success is defined as course completion with a passing grade. Although the ROI may not always be directly measurable in financial terms, the significant positive impact on student engagement and the overall student success are valuable outcome.
