Subject: Deborah Pope Burg 404 14th Ave. S, Princeton

Hi this is Deborah Pope Burg. Kent Burg (my husband) and I have several rental homes in Princeton. We provide housing for the community at a good prices and friendly landlord. We have worked 20 years to try to make a retirement so we are not a load on society.

During the pandemic we were not allowed to evict Nicole and Steve Skowronek. We have documentation from the police being called nine times for possible drugs! And despite all that, we were not able to evict them. We lost five months of rent and our house was destroyed. We had to take it because of the pandemic! We have lost over \$7,000 in rent and another \$7,000 in repairs.

I know the PPU was not able to turn off utilities due to the pandemic and lost money also. I am asking the city to remove this sewer bill for \$361.13 as I have taken a big share of the pandemic loss already. Thank you for your consideration.

Deborah Pope Burg
