

**STATE BOARD FOR COMMUNITY COLLEGES AND OCCUPATIONAL EDUCATION**  
June 8, 2022

**TOPIC:** Student Fees Approval

**PRESENTED BY:** Mark Superka, Vice Chancellor for Finance and Administration

**RELATIONSHIP TO THE STRATEGIC PLAN:**

Redefine our value proposition through accessibility, affordability, quality, accountability, resource development, and operational excellence.

**EXPLANATION:**

In April 2022, the Board approved FY 2022-23 fees for all colleges. However, Northeastern Junior College has subsequently requested removal of the Digital Content Fee from its Human Anatomy and Physiology I and Human Anatomy and Physiology II courses (BIO 201 and BIO 202), which was set at \$66.00 per course. In addition, the Community College of Aurora inadvertently omitted a program fee for their Basic Electrical course (ASE 102) and is requesting to include a fee of \$500 per course.

**RECOMMENDATION:**

Staff recommends the Board approve the fee removal and fee addition described above.
