Good Evening,

I am writing to verify that the document posted under the Scope of Practice section of the BON website regarding Dermatology/Cosmetic Services remains up to date. In particular whether or not an RN or APRN may fire a laser in NH, and whether or not LPNs are able to be administering neurotoxin in the State of NH.

Lastly, I understand APRNs may dispense medications. Does the term "dispense" include pre-filled syringes of medication, or must they be in the original vial?

Thank you!
Brett Roberts
