RE: Funding for Lee County businesses

To whom it may concern,

I was very disappointed to hear my request for funding was denied. I should have made myself clear on the application. My businesses doors were closed due to Covid 19 starting in March of 2020. Because of the required closer Quick Quality Signs did incur a substantial loss of income during COVID 19.

I did get calls from a municipality for signs for closing activities and parks. Those signs for were printed for them, that is why I stated I was not closed. I was just being honest. I did some signs that were necessary for that municipality to inform the public of closers. I was a retail business and was required to close in March of 2020.

Please reconsider your decision to deny funding for my business. I have been a small struggling business for 22 years. The Covid 19 impact is still effecting my business.

Thank you,

Teresa Blackburn
