1. Prices, most of which are provided by national pricing services, are not guaranteed for accuracy or realizable value. Generally, the price shown for market-traded securities is the closing price as of the statement date. If a price is not received for that date, then the price will be the last price received. Non-market traded security prices are based on the most recent values provided or obtained. Securities traded in a foreign market show a local market price. A currency exchange rate has been applied so the Market Value is in U.S. dollars.
2. **For holders of the Infinity Q Diversified Alpha fund ("IQ Fund"):** The current price listed on your statement may not be representative of the final liquidation value. Most of the remaining cash in the IQ Fund has been moved to a Special Reserve that is reflected on your statement as a miscellaneous asset titled **Infinity Q Diversified Alpha Special Reserve**. This asset represents an assessment of the most recent Special Reserve per share value based on data available at <https://www.infinityqfundliquidation.com/>. Please note this position is for recordkeeping purposes only and will not be available to be transferred, gifted, and/or liquidated. The ultimate distribution to IQ Fund shareholders may be more or less than this assessment based on (a) fluctuations in the Special Reserve, (b) the possibility that former shareholders will be entitled to receive proceeds from the Special Reserve, and (c) current shareholders that previously redeemed shares may receive more limited payouts. The Special Reserve may decrease over time as costs and liabilities are accrued in ongoing litigation. To support the Special Reserve, the IQ Fund Board has also created a Special Litigation Committee ("SLC") to pursue claims against various third parties, including service providers. The Special Reserve may increase due to the recovery efforts of the SLC.

4. For Individual Retirement Trust (IRT) accounts, you have the right to modify the withholding instructions you have on file with us at any time. If you wish to do so, please contact your account administrator.
5. Estimated annual income is based on current assets and returns. It is a snapshot of your account as of the statement date. Variations in the asset composition and returns of the account will change these estimates. Please keep in mind that these are estimates only and not a guarantee of income.
6. Income and gain/loss information are based on the best information we have at the time of the transaction, some of which may have been provided by third parties. Subsequent tax classification changes can occur during the year. Also, in some instances, such as complex corporate mergers or tenders, the taxability of the transaction cannot adequately be reflected on your statement. Therefore, you should only use the official tax information letter, which is sent to you after the year-end, in preparation of your tax return.
7. You will receive an official tax information letter after the end of the tax year which advises you regarding the amounts you should include in your tax return. Do not rely on the income reported on this statement to prepare your taxes.
8. Trust accounting income is reflected in the section entitled "Your Account Activity". If your account is a Trust or an Estate, and BMO Harris or an affiliate is Trustee/ Co-Trustee or Executor/ Co-Executor, we will first apply the provisions specified in the governing document(s) or, in the absence of such provisions, the appropriate state law that applies for the allocation of income and principal as it relates to receipts and disbursements. Thus, the allocation may vary from state to state and account to account.
9. Receipt of this account statement will serve to confirm that the individual(s) with investment authority (i) directed or approved all account transactions listed on the account statement and (ii) ratifies all trades disclosed on the account statement. Please contact your portfolio manager or trust administrator with any questions.

 23. Taxable Bond Election. The IRS requires taxpayers to amortize the premium on all bonds over the life of the bond or until the bond is sold or redeemed. The annual amount of amortized premium will reduce the cost basis of the bond and may provide an offset to the income earned on the bond during the year. If the bond is a taxable bond, the taxpayer may elect out of the amortization rule; there is no opt out for tax-exempt bonds. BMO Harris will amortize premiums paid for all bonds in Client's account, including taxable bonds unless Client instructs otherwise in writing.
