**RE: FFP, LLC dba BioMatrix Specialty Pharmacy FL
Non-Resident Pharmacy Renewal Inspection Exception Request
Permit # NR0196**

To Whom It May Concern:

This letter is written as a formal request for an exception to the inspection report requirement for renewal of the Non-Resident Pharmacy Permit #NR0196 for FFP, LLC dba BioMatrix Specialty Pharmacy FL ("BMXFL"). It is important to note that we are not a compounding pharmacy.

BMXFL is due for renewal of Permit #NR0196, expiration date December 31, 2022. Unless the Florida Board of Pharmacy (the "FL BOP") shows up to conduct an inspection within the next six weeks, we will not be able to satisfy the New Hampshire Board of Pharmacy 18-month inspection requirement. Our last inspection was conducted by the "FL BOP" on December 17th, 2020. The FL BOP typically conducts its pharmacy inspections annually unless the pharmacy has had two consecutive clean reports, in which case, they may choose to skip a year. As this is the case for BMXFL, an inspection was not conducted by the FL BOP in 2021. An inspection should occur within the next one to three months. We do not have an exact date as the inspections are unannounced. We are prepared and ready for an inspector to show up at any time and will provide a copy of the inspection once it has occurred.

Also of note, the FL BOP does not honor requests for inspections unless the request is for a change of location or change of ownership.

Given that BMXFL has not had any deficiencies noted on at least its past three inspection reports (dating back to February 16, 2018), and the current situation with the FL BOP pending inspection, we kindly and respectfully request that you consider and grant our plea for an exception to be made for this renewal cycle. BMXFL takes great pride in servicing our patients in a consistent and reliable manner and believe that a disruption in our services for specialty medications is not in our patients' best interests.

Should you have any questions, please contact me via email at Rachel.marchiano@biomatrixsprx.com or via phone at 610-717-7242

Thank you, in advance, for your time and consideration in this matter.

Sincerely,

Rachel Marchiano-Yeskelawitch
