Walgreen Eastern Co., Inc. ("Walgreens") has operated retail drug stores since 1921. Walgreens owns and operates over 1,500 stores in the United States.

In the normal course of its business operations, Walgreens' pharmacies are periodically subject to inspection and, on occasion, administrative action by state agencies that regulate the practice of pharmacy. Typically, the pharmacy is given an opportunity to correct the deficiency within a specified period of time and, if it does so, the matter is closed without disciplinary or adverse licensure action. In the course of the last reporting period, one or more pharmacies owned directly or indirectly by Walgreen Eastern Co., Inc. have been disciplined and/or required as part of a corrective action plan, to pay an administrative fine to a state and/or federal agency. We can confirm, however, that none of the pharmacies subject to these actions had their retail pharmacy license in any way suspended, restricted, or denied as a result.
