SUPPORTING INFORMATION

Kentucky's Healthcare Workforce Collaborative is a \$10 million initiative funded by the legislature to bring together state leaders, policy experts, campus leadership and the health care industry to solve Kentucky's health care crisis. Much work has been completed with this initiative since its inception in 2022, including the establishment of the Healthcare Workforce Investment Fund and the development of the CLIMB Health initiative, but one of the biggest accomplishments has been the collaboration established by bringing together the postsecondary and business communities.

To further facilitate this collaboration, CPE is hosting its first Healthcare Workforce Collaboratory on October 10, 2023. It will be held at the Marriott Griffin Gate in Lexington, Kentucky, and the in-person only event features sessions and networking opportunities that help bridge the gap between our postsecondary institutions and workforce partners. Attendees can:

- Learn about Kentucky's new postsecondary education initiatives supporting the state's healthcare industry.
- Discover how AI is impacting healthcare workforce operations & preparing today's students for tomorrow's challenges.
- Hear from legislators as they discuss healthcare, workforce, and postsecondary education.
- Learn about existing partnerships that have been shaped by the Healthcare Workforce Collaborative since its formation.
- Enjoy numerous opportunities to network with industry partners, campus leadership, and legislative leaders.

The event is sponsored by CPE and the Healthcare Workforce Initiatives grant and the full agenda can be access here: <https://cpe.ky.gov/events/hwc/agenda-hwc2023.pdf>.
