LAURCO Metalworks is pleased to Quote the following:

**Install rolling door operator for hangar doors– Beaufort Airport**

Install rolling door operator for hangar doors for **\$15,500.00**. This includes material, labor, and all tools/equipment necessary to perform work.

Scissor lift rental is included

**Scope of work:**

**Fabrication**

- Fabricate mount to attach the motor and drive
- Fabricate mounts the catch each door as they open and close
- Install festoon cable and rollers

**Electrical**

- Run conduit
- Install disconnect box
- Pull wire to disconnect box
- Run wire from disconnect box to the control box
- Install breaker
- Test

We will be cleaning the tracks out and doing an inspection on the casters on the bottom of the doors and the bearings on the tops of the doors. If any are found to be bad we will let you know and give a price to replace.

**Excluded:**

- N/A

We appreciate the opportunity to bid this project. If you have any questions, please give us a call.
