

**Hi, we're May Mobility.
It's Nice to Move you.**

Meet May Mobility

We envision a safer, greener, more accessible world through autonomous mobility.

Mission: to transform Cities via Safe, Accessible Self-Driving Transportation

Business Model: to offer turnkey Transportation as a Service for cities by leveraging unique technology to operate fleets of autonomous shuttles

Offering:

Shuttle & ADK production
Route development
Turnkey Service
Robust Data

May has launched in 7 cities, with additional routes coming in the second half of 2021.

Ridership by Stop

July 2021 (Month 2)

4% Increase in Red Line Connector Vermont Station for Pick Up/Drop off

Rider Feedback

“I will be taking many more trips this way.”

“The car came immediately, nice working car, good navigation, super nice driver”

“On time, very nice attendents, super easy, and driving in style! Love it!”

“It is a great way to get around town. I have had only good experiences from it!”

“I took an automated ride that was awesome!”

“I sincerely hope that the service continues to be available in the same area of Indianapolis after November 2021.”

“You guys should add a route to some off campus apartments like The Vivio on 10th!”

“It was a great experience!!”

IndyGo <> May: Workforce Shadowing Agenda

Agenda:

- **8:30–9:15am:** Welcome & introduction
 - Introductions
 - Overview of AV industry
 - Overview of May Mobility
 - Technology deep dive
 - Operations deep dive - June monthly report
- **9:15 – 11:45am:** Shadowing and tour with site team: Site Manager, Site Supervisor, Field Autonomy Engineer, Fleet Attendant
- **12 – 12:30pm:** Closing Q&A

IndyGo <> May: Workforce Shadowing Recap & Next Steps

Notes and takeaways:

- The main questions and interest from IndyGo participants centered around AV technology, wheelchair accessibility, and insurance.
- Other questions centered around facilities, cost, and future plans for the route.
- There were not many surprises about how operations and the base station are run; participants reported it was quite similar to what they are used to at IndyGo.

Next steps:

May Mobility will lead a lunch and learn with IndyGo, TMF, and ESN on September 16, which will consist of the following:

- Overview of shadowing session
- IndyGo participants are invited to share their learnings
- Partner with organization leadership to brainstorm long term opportunities
