Re: 2023 MSAS Route Revisions  
City of Princeton, Minnesota

Dear Andjela Tomovic,

Please find enclosed the map designating the Municipal State Aid Street system revisions for 2023 for the City of Princeton. According to the City's 2022 Annual Certification of Mileage, 6.08 miles are available for designation. As shown, the City of Princeton is planning to make the following additions to their State Aid Routes:

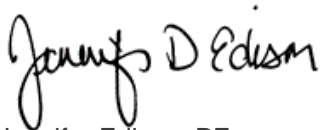

- Addition of 14<sup>th</sup> Avenue S, 12<sup>th</sup> Street, 19<sup>th</sup> Avenue, and 21<sup>st</sup> Avenue from CR 45 to CR 31.
  - Segment Length: 1.65 miles
- Reasoning: this roadway is a collector road moving heavy traffic through the industrial area from and providing a connection between two county roads.
- Addition of Northland Drive, Old County Road 18 S, and 11<sup>th</sup> Avenue S from CR 29 to CR 31.
  - Segment Length: 1.40 miles
- Reasoning: This roadway is collector road moving heavy traffic and connecting two county roadways. The route includes a hospital, high school, and residential neighborhoods.
- Addition of S 3<sup>rd</sup> Street from 11<sup>th</sup> Avenue to 4<sup>th</sup> Avenue N.
  - Segment Length: 0.50 miles
- Reasoning: 3<sup>rd</sup> Street is a collector roadway moving traffic through the downtown area.
- Addition of 4<sup>th</sup> Avenue N and N 2<sup>nd</sup> Street from 3<sup>rd</sup> Street to CR 29.
  - Segment Length: 0.34 miles
- Reasoning: 4<sup>th</sup> Avenue is the only north/south streets that is located east of CR 29 and is a collector roadway for vehicles destined for CR 29.
- Addition of N 3<sup>rd</sup> Street from 13<sup>th</sup> Avenue N to CR 29.
  - Segment Length: 0.56 miles
- Reasoning: 3<sup>rd</sup> Street is a collector road carrying traffic from the Mille Lacs County Fairgrounds to CR 29.
- Addition of W Branch Street and 7<sup>th</sup> Avenue from 13<sup>th</sup> Avenue N to W 3<sup>rd</sup> Street.
  - Segment Length: 0.52 miles

- Reasoning: W Branch Street is a collector roadway used to access TH 95.
- Addition of 13<sup>th</sup> Avenue N from CR 31 to W Branch Street.
  - Segment Length: 0.46 miles
- Reasoning: 13<sup>th</sup> Avenue is a collector road ultimately planned for connection to TH 95.
- Addition of non-existing 13<sup>th</sup> Avenue N from W Branch Street to TH 95.
  - Segment Length: 0.04 miles
- Reasoning: This roadway segment is planned for a connection to TH 95 in the future.
- Addition of 12<sup>th</sup> Street N from CR 29 to CR 4.
  - Segment Length: 0.37 miles
- Reasoning: 12<sup>th</sup> Street N is a collector roadway carrying traffic between two county roadways.

After making these modifications, 0.24 miles of undesignated Municipal State Aid Streets will remain.

If you have any questions or comments, please do not hesitate to contact me at 612.219.3500.

Sincerely,
