Local Performance Indicator

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean, and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the *Williams* settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California *Education Code* (*EC*) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean, and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions - 33 teaching positions, no misassignments. We had two teachers with intern credentials, two teachers on General Education Limited Assignment Permits (GELAP), and one teacher with an emergency CLAD certification. CSMH had no vacant teaching positions. There are three teachers who teach an elective and will need to be credentialed by July 1, 2025.
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home - all students have access (0%)
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies) - All facilities meet the "good repair" standard

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Implementation of State Academic Standards (LCFF Priority 2)

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the *optional* reflection tool (Option 2).

OPTION 1: Narrative Summary (Limited to 3,000 characters)

In the narrative box provided on the Dashboard, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the state board and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA's progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) Common Core State Standards for ELA
- English Language Development (ELD) (Aligned to Common Core State Standards for ELA)
- Mathematics Common Core State Standards for Mathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State					X
Standards for ELA					
ELD (Aligned to ELA					
Standards)				^	
Mathematics – Common					
Core State Standards for					X
Mathematics					
Next Generation Science					_
Standards					^
History-Social Science					×

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Academic Standards	1	2	3	4	5
ELA – Common Core State					
Standards for ELA					^
ELD (Aligned to ELA				V	
Standards)				X	
Mathematics – Common					
Core State Standards for					X
Mathematics					
Next Generation Science					X
Standards					
History-Social Science					×

 Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					Х
ELD (Aligned to ELA Standards)				Х	
Mathematics – Common Core State Standards for Mathematics					x
Next Generation Science Standards					Х
History-Social Science					X

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Academic Standards	1	2	3	4	5
Career Technical Education			×		
Health Education Content Standards				Х	
Physical Education Model Content Standards					Х
Visual and Performing Arts					Х
World Language					×

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability

Activities	1	2	3	4	5
Identifying the professional learning needs of groups of					>
teachers or staff as a whole					^
Identifying the professional					
learning needs of individual					X
teachers					
Providing support for					
teachers on the standards					X
they have not yet mastered					

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

CSMH offers an academically demanding, community-connected elementary and middle school program with strong family involvement. All students are expected to perform at their highest level and to excel in the content areas outlined in the state curriculum standards. State academic standards are met through a variety of teaching methodologies. Project based learning (PBL), our primary method of instruction, encourages active exploration and utilizes complex real word problems which leads to a better understanding of concepts and greater student engagement. More effective learning takes place when students can relate new information to past experiences, their community, and their culture.

The staff embraced the Common Core State Standards and Next Generation Science Standards soon after release. The staff has developed multiple projects over the past several years that address the standards and encourage students to think critically and problem-solve. The staff has also been required to develop annual SMART goals that demonstrate their implementation of the Common Core State Standards and Next Generation Science Standards.

Through Professional Learning Communities and professional development opportunities, staff has had time to examine in-depth the Common Core State Standards and Next Generation Science Standards. CSMH has aligned teaching methodologies, instructional materials, and assessments to the state content standards.

Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

- 1. Building Relationships between School Staff and Families
- 2. Building Partnerships for Student Outcomes
- 3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below:

- 1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
- Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
- 3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
 - 1 Exploration and Research Phase
 - 2 Beginning Development
 - 3 Initial Implementation
 - 4 Full Implementation
 - 5 Full Implementation and Sustainability

- 4. Write a brief response to the prompts following each of the three sections.
- 5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

Building Relationships

Building Relationships	1	2	3	4	5
Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					X
Rate the LEA's progress in creating welcoming environments for all families in the community.					Х
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.					Х
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.					X

Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Staff and parents work together as a team to support academic outcomes. Over 90% of parents attend Back to School Night, Fall Exhibition, and Spring Exhibition. At these events, teachers take the opportunity to educate parents about how they can support their children at home. Every parent attends a goal-setting conference in the fall. Teachers, parents, and students work together to develop goals and an action plan for the school year. CSMH has subscribed to a program called ParentSquare. This program provides a quick and easy platform for parents and teachers to communicate with one another. CSMH has a Community Liaison whose primary job is to develop family engagement systems and activities that create support for teaching, learning, and student achievement. CSMH has identified strengthening the parent partnership in LCAP goal #3 – CSMH will welcome students, parents, and staff in an inclusive environment as essential partners and encourage consistent participation in school experiences that support student success.

Building Partnerships for Student Outcomes

Building Partnerships	1	2	3	4	5
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.					X
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.					X

7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.			X
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.			Х

Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Parent participation is a key component of CSMH's mission and vision and is highly valued. Staff meets regularly to discuss and implement strategies for building trust and respectful relationships with families. CSMH prides itself on creating a welcoming and family friendly environment.

During the 2022-2023 school year, CSMH provided parent education opportunities. The school offered parents a series of four workshops that were presented live via Zoom. These workshops were also recorded and made available to staff and parents after the live presentation. The following workshops were offered: Understanding Anxiety and Its Impact on Children, Recognizing and Supporting Social Emotional Learning, Parenting Techniques to Building Resilience, and Superpowers of Stress, Sleep, and Self-Care. Our school counselor also facilitated a book club. They read, *Anxious Kids, Anxious Parents: 7 Ways to Stop the Worry Cycle and Raise Courageous & Independent Children* by Wilson & Lyons.

The CSMH Outreach Coordinator and a parent committee continue to develop and implement strategies for reaching out to underrepresented communities and to encourage them to consider CSMH as an option for their children.

Seeking Input for Decision Making

Seeking Input	1	2	3	4	5
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.					X
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.					Х
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.					X
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.					X

Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

CSMH utilizes a computerized check-in system, and a feature of this system allows for the tracking of at-school volunteer hours. On average, parents volunteer 775 hours a month. This does not include all of the hours parents contribute after school and on weekends. In addition, parents have an opportunity to participate in decision-making by being on the CSMH Board of Directors and/or attending monthly Board meetings. Parents also may serve on the Budget / LCAP committee or represent CSMH on the Community Advisory Committee for special education. Every May, CSMH holds a State of the School meeting. This meeting is attended by the majority of CSMH families and staff. At this meeting, parents have an opportunity to provide input into the school's LCAP goals and ask questions regarding the budget.

Our Community Engagement Coordinator assists in tracking family engagement and regularly communicates with the classroom teachers. She frequently reaches out to families and discusses with them the different opportunities that are available for them to get involved in the school community and, more importantly, their child's education. She also tries to understand what barriers might keep families from engaging and how those barriers might be eliminated. Making connections with families, including underrepresented families, has been very successful. CSMH can continue to focus on ensuring underrepresented families' are on decision making committees and groups.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

CSMH staff administers student perception surveys twice a year to all students. These surveys were designed after the work done by the Measures of Effective Teachers (MET) project. The surveys focus on the following areas: Do students feel academically challenged, Do students feel that teachers have classroom control, Do students feel their teachers check for understanding, Do students feel engaged in learning, Do students feel connected to their teachers, and Do students feel their teachers care about them. The purpose of the surveys is for teachers to receive feedback from their students in order to improve their teaching and relationships with students. Taking a sampling of the surveys, CSMH students' responses in each of the above areas were over 80% as "mostly true" or "totally true." At the end of each school year, teachers must write a self-reflection based on the survey results.

The 4th-8th grade students completed a school climate survey at the end of the school year and CSMH staff will be looking and interpreting the results in the next few weeks.

- 2. **MEANING**: What do the disaggregated results (*if applicable*) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
- 3. **USE**: What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

CSMH teachers use these surveys to reflect on their practice. Based on student input, some teachers will create a SMART goal to address an area they would like to improve. Administrators also review all the teacher survey results and will use this information to look for trends. Professional development opportunities or specific LCAP actions can be developed to improve the school climate.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

 Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

Being a single school site, it is easy to track the access and enrollment of students in courses. All students have access to the curriculum offered at CSMH and this data is available in School Pathways, a Student Information System. Besides the core curriculum (math, social studies, science, and language arts), all students received instruction in Spanish and physical education taught by instructors that specialize in these areas. CSMH has developed an inclusion program for our students with exceptional needs.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

CSMH's charter document clearly outlines the broad course of study that all students have access to and can be found on its website (www.csmh.org).

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

Currently, there are no identified barriers. CSMH provides access to a broad course of study for all students.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

CSMH currently provides access to a broad course of study for all students.
