Quarterly Insurance Meeting /August 16th

The committee participated in a Zoom call with Cindy Zichal and Angie Moscato, our consultants from IPBC, to review our current status. We now have 12 months of statistics. The good news is our total annual claims are down from the previous year therefore our costs will be lower than originally projected for this coming year. We can expect an increase of about 4.25%. Wendy had previous knowledge and it is currently reflected in the budget information.

Penny Slusser and Nancy Peterson have been implementing new insurance software called PlanSource. This implementation requires employees to update their personal information with Penny.

Wellness Report-

Quick background-

In reviewing the Wellness program incentives/giveaways early this year it was noted that the process currently used to distribute the wellness monetary incentives needed to be revised due to tax liability and responsibility. In conjunction with the Wellness group, other employees, specifically Sara Leisner and Tracy Bay who volunteered to take over the Wellness Committee, and Paul Rudolphi did an enormous amount of research and discussed possible ideas for execution of the wellness incentives. The outcome is good and meets the County's responsibility as well as keeping the Wellness program intact for the employees. The group worked out a plan through Empower to have all incentives processed through them, rather than the county.

Upcoming plans-

Biometric testing will be held late in October and the Committee is planning a Summer Give Away incentive.
