Broward Health is requesting that the Board of Commissioners authorize the District to approve to enter into a new agreement with Dr. Joshua Daniel, for a 2-year term. ⁴ This applies to physician/physician group contracts

JUSTIFICATION

Broward Health has documented and objectively determined that there is a legitimate business purpose for the services of a qualified neurologist to provide clinical care at Broward Health Medical Center. As a safety net hospital, the District is obligated to provide services to meet the community needs.

Presently, Broward Health does not employ any general neurologists. Recommendations from the Community Needs Assessment suggest that access to care is a priority and specifically a need to enhance access to specialists throughout the service area. There is a documented existing shortage of (11.6) neurologists in the Broward Health North region and (14.8) in the Broward Health Medical Center region by 2025.

It is critical for the community and healthcare system to employ neurologists to meet the current and future demands, to provide patient care and access to physicians at the largest facility in the system.

It is urgent that we employ Dr. Daniel to fill the need for neurologists to provide continuity of inpatient care, follow up clinic care, and consults for the existing and growing needs of this specialty.

STAFF RECOMMENDATION

Therefore, it is requested that the Board of Commissioners of the North Broward Hospital District authorize the District to enter into a two-year employment agreement with Dr. Joshua Daniel up to the 88th percentile for the provision of Neurology Services at Broward Health.
