Hi Hayley!

I have run into a complication with the hours I am given with this job. I really enjoy being outside, around kids, and working for the splash park. Unfortunately, as a college student I am just not working enough and making enough money. I have made the decision to look else where for a job and I will have to quit at the splash park. Do I need to put in my two weeks or is there a way someone could my two shifts I have this week and next week? I hope you can understand, and I really appreciate all you have done in regards to this job.
