## RED ROCKS COMMUNITY COLLEGE: STRATEGIC PLAN AY 20-21<sup>1</sup> SNAPSHOT & EXECUTIVE SUMMARY

AY20-21 was an unusual year due to the pandemic, which impacted our students, our colleges, and our faculty. Nationwide trends saw severe enrollment losses among community colleges, especially for underserved populations such as low-income students and students of color. These losses may be reflected in the strategic plan metrics. Certificates and degrees awarded as well as transfers to 4-year institutions both declined over the prior year. Additionally, the fall-to-fall retention for full-time students did not meet the national average and declined 2.9 percentage points over the previous year. Distance and hybrid course pass rates increased over the previous year but remained below the on-campus goal. Credits earned through concurrent enrollment dropped from the previous year, as did the number of certificates and degrees awarded to concurrent enrollment students.

First generation and Pell eligible students completed gateway English at a higher rate than the overall student population, and Pell eligible students completed gateway Math at a higher rate than the overall student population at RRCC. These students generally fall below the overall retention, course pass rates, and transfer rates. One exception is that Pell eligible students surpass the overall part-time retention rates. While the overall rate of precipitous decline in GPA from first to second semester decreased compared to last year, students of color, first generation and Pell eligible students were more likely to have a precipitous decline in GPA and to be registered at fall census but have no earned credits for the term.

Detailed data and five-year trends can be accessed via the Strategic Plan KPM dashboards.
