Thank you for helping us tech the halls with computers and internet for all!

Your 57 lbs. of technology helped to provide over 60,000 households with computers in 2022.

See Our 2022 Impact

From all of us at PCs for People, thank you for your ongoing support of our mission to provide equitable access to computers, internet, and digital education. We wish you a healthy and happy holiday season!

Let's make an even bigger impact in 2023!

We want to make scheduling your e-waste pickup as simple as possible. To schedule, you can:

- Use our online scheduling form **here** OR;
- Email us at **recycle@pcsforpeople.com**.

Schedule a Pickup Now

Help us spread the word about our no-cost and secure e-recycling services by forwarding this email to ten people in your network!

Looking for a fun way for your team to give back?
Volunteer at your local PCs for People!

All of our markets are eager to welcome volunteers from local businesses, corporations, and organizations. Volunteers have the opportunity to give back to the community while learning from their peers in a non-traditional setting. Many volunteers start with a basic understanding of technology but through group interactions, they are quickly able to expand their skill set in not only the technical field but also in communication and public service by interacting with a diverse client base.

Interested in volunteering as a group? Email volunteer@pcsforpeople.org.

Thank you for helping us make an impact in 2022!

December 21, 2022

From all of us at PCs for People, thank you for your ongoing support of our mission to provide equitable access to computers, internet, and digital education.

We are proud of the impact we have made so far this year and look forward to more opportunities to work toward digital equity in the new year.

Help us spread the word!

Please help us spread the word about our no-cost and secure e-recycling services by sending this blog post to ten people in your network! Every computer we receive helps to power our mission to provide affordable refurbished computers, high-quality internet service, and digital skills training to individuals and families with low incomes.

As a valued supporter, we hope you will also take pride in this year's impact and encourage you to **download (https://www.pcsforpeople.org/wp-content/uploads/2022/12/E-Recycling-Partner-Impact-2022.zip)** and share the images linked below on your social media accounts.

Suggested caption for e-recycling partners: This year, [company name] partnered with PCs for People to be our trusted e-recycling provider. Not only was it easy (they picked up all our used computers and tech devices) and free (they offer pick-up and data sanitization at no cost), but also by recycling with them, we are supporting our community and reducing our environmental impact. We feel good knowing that our technology helped to support over 60,000 low-income households receive computers this year.

Join us in 2023! Learn more about PCs for People at www.pcsforpeople.org/recycle.

Get Involved

Want to get involved in 2023? Learn more about volunteering, e-recycling, partnership opportunities, funding, and more at **www.pcsforpeople.org/get-involved (https://www.pcsforpeople.org/get-involved/)**.

Without our e-recycling clients, community partners, staff, volunteers, and supporters, we cannot achieve our mission to make digital equity a reality. Thank you to all who help us keep computers out of landfills and into the hands of people who need them. We look forward to working with you in 2023.

2022 IMPACT
as of 12/20/22

60,200
computers distributed in all fifty states and Puerto Rico

150,000
people supported through computers, internet service, and digital skills training.

4.5 OUT OF 10
had never owned a computer before.

Of the people who shared their ethnic background:

47% African American/African
35% Caucasian/White
12% Latino/Latina/Hispanic
3% Asian/Pacific Islander
1% American Indian/Alaskan Native
1% Middle Eastern

4 million pounds
of e-waste refurbished or responsibly recycled

lbs

21,195.93 MTCO2e of GHG Emissions Avoided

That is equivalent to removing annual emissions from 4,084 passenger vehicles!
