What interests you about position you are seeking appointment for?

I have spent the last 3+ years leading a multi-county consortium addressing Social Determinants of Health needs and Substance Use Disorder (Project OPEN). Stable housing, employment, and transportation are three main components to an individual's success in maintaining recovery and to a family success in taking steps toward breaking the intergenerational cycle of trauma. Being a part of team which will help develop a Mass Transit District aligns with multiple other community-based projects I am working on.

Brief description/account of your professional journey:

I started as a healthcare consultant in 2015 analyzing the procure-to-pay process for large health systems to streamline operations. I joined KSB Hospital in 2018 to implement a new Electronic Health Records advance and to advance our digital space. During my time at KSB, I have designed our telehealth operations, doubled revenue for the Corporate Health dept, managed 2 federal grants, and created the Decision Support team to support leadership. I also manage an auto repair shop and serve on multiple Boards.

Professional specialties and/or relevant areas of expertise:

Top skills are leadership, data analytics, customer service, marketing, finance, teamwork, and implementation. I have my Master of Health Administration (MHA) which is an MBA with a healthcare focus. Currently hold an ASQ-Certified Six Sigma Black Belt (Lic. # 19211) which is a statistical and quality-based approach to help streamline business processes and improve an organizations bottom-line. I also have familiarity with LOTS' CTS software and reporting tools.

Academic honors and significant accomplishments:

Upsilon Phi Delta Honor Society during years obtaining MHA. Development of a novel asynchronous tele-behavioral health platform. Development of a Productivity data modeling tool + Service Line Analysis data model to improve hospital operations. Creation of a multi-county consortium of 30+ agencies addressing Social Determinants of Health needs in Lee, Ogle, and Whiteside counties.
