

## Memorandum

To: Honorable Mayor and City Council, City of Princeton

From: Jenn Edison, PE, City Engineer, WSB

Date: March 9, 2023

Re: Authorize Bidding for the Industrial Park Street and Utility Extension

The proposed Industrial Park Expansion is a 46-acre parcel located in the southwest quadrant of County Road 31 and 21<sup>st</sup> Avenue South intersection. In 2021, the previous 8-acre Aero Business Park was combined with the 46-acre parcel and re-platted as part of a new Industrial Park Expansion, and in 2022 the parcel was again re-platted due to interest from a Princeton business owner to relocate to the Industrial Park but needed a larger lot than what was originally platted.

Final design includes the construction of over 2,000-ft of two-lane urban roadway with curb and gutter and storm sewer. The pavement is designed to meet a 10-ton roadway to support heavy trucking from business development.

Sanitary sewer and watermain will be extended from the existing mains in 21<sup>st</sup> Avenue South to serve the developing lots, and the watermain will also be connected to the existing watermain in County Road 31 to provide the new Industrial Park with a “looped” system for water quality and fire protection.

Streetlights will also be installed through the road corridor, and a conduit system will be extended for the future installation of fiber optic services.

The construction plans are not yet complete; however, to meet the approval dates for the City Council and meet deadlines for submitting the advertisement to bid to the local paper, we are requesting Council authorize bidding at this time.

Staff have put together the following schedule for bidding the project:

Council Authorizes Bidding	March 9, 2023
Open Bids	April 12, 2023
Award Project	April 27, 2023
Start Construction	Spring 2023
Final Completion	Spring 2024
