AGENDA  
APPROVED

Clmbr Porath moved to approved Emergency Ordinance 21-101, Protective Measures to Prevent the Spread of COVID-19 Throughout Saint Paul Island, seconded by Clmbr Zacharof. The hospital capacity in Alaska is very limited and staffing is critically low. There may also be a delay in testing and getting results. The City of Saint Paul will continue to use the State of Alaska Department of Health and Human Services guidance on recommendations with changes due to the pandemic. We do know our local Health Center is very limited with staff and the medical care they can provide on island. This surge is expected to last for a couple of months. This is all factored into the proposed changes to the ordinance. Travel will be open for Essential workers, critical personal needs for residents and removing travel for vaccinated individuals and unvaccinated children traveling with vaccinated guardian. Everyone will be required to test 48-72 hours prior to traveling to Saint Paul Island, regardless of vaccination status. Vaccinated individuals will quarantine for 7 days and test on the 7<sup>th</sup> day. Unvaccinated individuals will quarantine for 10 days and test on the 10<sup>th</sup> day. All Essential workers will submit a Community Workforce Protection Plan for approval prior to traveling.
