---

Hey Shawna, thanks for getting these questions added for Open Forum. 😊

1. Does the Mayor wish to publicly retract his statement on the Princeton Bulletin Community Group that any house with a "Vote No" sign (related to PUC ballot question) is "not participating in Halloween"? The issue of Trick-or-Treating is a heated topic in the community in relation to COVID-19. Mayor Schumacher stated: "Only the people with vote no signs in their yards want to cancel Halloween!". Would this be coercion influencing a ballot question, based on Minnesota Statute 211B.07 UNDUE INFLUENCE ON VOTERS PROHIBITED?
2. For the City Attorney or Mayor: Is there County or State regulation overseeing the Mayor using city time and resources for the City to address accusations of residency, related to his current reelection campaign? If not, is there opportunity for other candidates for office to be on the agenda of a city meeting to devote to campaigning? This is listed as "New Business" as item 12.3 on the October 22<sup>nd</sup> meeting (tonight).
