

November 8, 2021

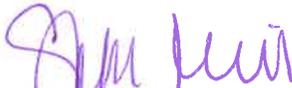

Ms. McPherson,

It is with a heavy heart that I submit my resignation as Community Development Manger for the City of Princeton, with my last day as November 29, 2021. I have been offered and accepted a position for Community Development Director in a nearby community.

Working in Princeton has been a wonderful experience I will always look back upon with fondness. I appreciate the opportunity and have learned so much from my tenure in Princeton I am certain I will carry forward with me in my career for years to come. The Princeton community will always hold a special place in my heart and though I'm excited for my new opportunity this decision was a very difficult one.

In the best interest of the City of Princeton, I will be happy to organize and prepare all ongoing projects and tasks to assist with the transition for my successor and will make myself available for answering questions as needed.

Thank you for the opportunity to work in this great community!

Stephanie Hillesheim
