---

### SUMMARY

---

Experienced, multi-operational Construction / Project Manager that is skilled in Construction, Manufacturing and Safety for Oil and Gas, Power Transmission and Distribution, Petro-Chemical and Commercial and Marine construction and more recently Cured in Place Pipe (CIPP) rehabilitation. Consistently finishes projects with emphasis on safety, planning, craftsmanship, and schedule. Advocate of planning and collaborating to maximize constructability, cost control, capture change orders and measuring performance against metrics while minimizing scope creep, risks, incidents and re-work. Committed to Safety, Practicality, Communication and Cost-Effective Solutions while maintaining Schedule/Milestones, Deliverables and Profitability.

---

### HIGHLIGHTS

---

Project Resource Planning and Scheduling  
Constructability Review  
Execution Plan Preparation  
IFR / IFC Drawing Reviews  
Sub-Contractor Selection & Management  
Project Financial Management

Strong Technical and Mechanical Aptitude  
Weld Inspection, Procedures and Qualification  
Identify Project Constraints and Strengths  
Risk and Reward Analysis  
Scope and Change Order Management  
Field / On-site Management

---

### EMPLOYER EXPERIENCE

---

#### **Project Manager & Estimator** (Apr 2022 – Present)

##### ***Veit & Company, Inc.*** – Rogers, MN

- Division Leader & Responsible for Profit and Loss for Industrial Cleaning Group.
