FOR W&M ATHLETICS

NCAA: Overview

ALL IN

About the NCAA: “More than 500,000 college athletes across all three divisions compete for about 1,100 member schools in all 50 states, the District of Columbia, Puerto Rico and even Canada. Regardless of where they start, student-athletes strive to end each season at one of the NCAA’s 90 championships in 24 sports.

The employees at the NCAA’s national office oversee all championships, manage programs that benefit student-athletes and support member committees that make rules and policies for college sports. Member schools and conferences ultimately decide which rules to adopt for their division — everything from recruiting and compliance to academics and championships.”¹
