Erie County Landbank

Corry Neighborhood Initiative (CNI) wants to thank you for your help in our fight against blight. We recently had signs made to recognize our major benefactors and will post them at each property we acquire to either rehabilitate or demolish. This particular house was subject to a drug raid, located in a neighborhood of nice homes just one block away from an Elementary School. With your help, this blighted property will be demolished and build new in its place.

Thank you,

Bradley Russell

Chairman, Corry Neighborhood Initiative
