

Michael J Smith Field Airport Update – June 2023

Fuel Farm Construction

- Grant closeout documentation has been submitted to the NCDOA and this project is now complete.

Runway 3-21 Rehabilitation

- TBI has received comments from the NCDOA on the 60% submission and is now working on the 90% submission.

Hangar Layout and Permitting Assistance (Taxilane Widening)

- Grant closeout documentation has been submitted to the NCDOA and this project is now complete.

Project Little Fish (Hangar 75 Site Work)

- TBI is coordinating with Trader Construction to finalize closeout documentation.
- The final pay application will be processed once all required closeout documents are received from Trader.
- Grant closeout documentation will be submitted to the NCDOA following receipt of closeout documents and processing of final pay application.

Laughton Property Preliminary Permitting Coordination

- TBI will be sending a Work Authorization Amendment for review to the Airport this week to provide additional design services including topographic survey and subsurface investigation.
