## Management Control Agreement

Pursuant to the CJIS Security Policy, it is agreed that with respect to administration of that portion of computer systems and network infrastructure interfacing directly or indirectly with the City of Princeton network for the interstate exchange of criminal history/criminal justice information, the Princeton Police Department shall have the authority, via managed control, to set, maintain, and enforce:

- 1. Priorities.
- 2. Standards for the selection, supervision, and termination of personnel access to Criminal Justice Information (CJI).
- 3. Policy governing operation of justice systems, computers, access devices, circuits, hubs, routers, firewalls, and any other components, including encryption, that comprise and support a telecommunications network and related criminal justice systems to include but not limited to criminal history record/criminal justice information, insofar as the equipment is used to process or transmit criminal justice systems information guaranteeing the priority, integrity, and availability of service needed by the criminal justice community.
- 4. Restriction of unauthorized personnel from access or use of equipment accessing the State network.
- 5. Compliance with all rules and regulations of the Princeton Police Department Policies and CJIS Security Policy in the operation of all information received.

Section 5.1.1.4 of the FBI CJIS Policy states: "...management control of the criminal just function remains solely with the Criminal Justice Agency."

This agreement covers the overall supervision of all Princeton Police Department systems, applications, equipment, systems design, programming, and operational procedures associated with the development, implementation, and maintenance of any Princeton Police Department system to include NCIC Programs that may be subsequently designed and/or implemented within the Princeton Police Department.

Thom Walker, Mayor City of Princeton, Minnesota
