Subject: Mark park paving options

You don't often get email from eli@ericksonasphalt.com. [Learn why this is important](#)

Dear Bob,
I hope this message finds you well.

I am writing to inform you that Erickson Asphalt has decided to shift our focus away from bidding on new paving projects for the City of Princeton. Our commitment is to deliver high-quality, long-lasting results, and we have found that our strengths are better aligned with projects that prioritize quality over price.

However, we remain keenly interested in continuing our partnership through patching, sealcoating, and other maintenance services. We value our relationship with the City of Princeton and look forward to supporting your maintenance needs with the same level of excellence and dedication that we are known for.

Thank you for your understanding and continued trust in Erickson Asphalt.

Kind regards,

Eli Erickson
