# Goal4 It!™

A science-informed approach to achieving economic independence

**Goal4 It! Implementation Plan for Ohio Area 12 has been established (includes Butler, Clermont, Warren counties, Easterseals, and Pressley Ridge)**

**Overall: By the end of June 2021, Ohio Area 12 will be consistently applying the Goal4 It! approach in supervision and in its service delivery.**

**Steps: Between January and March 2021, Area 12 will focus on integrating Goal4 It! into supervision and the partner organizations. Between March and June, Area 12 will focus on integrating Goal4 It! into service delivery.**

**Program** Integration Team has met to create surveys for youth and staff to measure success and potholes.

# Success Stories

## Finding Resiliency with Support

- Antewandria, 23 years old at enrollment, is a single mother who had recently moved to Ohio from another state to escape an abusive relationship prior to CCMEP engagement. She entered the program as an OWF participant and did not have a license, car or child care in place. While participating in the program, she completed STNA training, obtained her driver's license, bought a car, secured child care and got a job as an STNA.
- Two youth in Clermont County have recently graduated from Dental Assisting school! A great In-Demand sustainable career path.
