

Director Update: May 2023

Our auto instructor, JT, four students, and the RHS CTE Coordinator visited the Wyoming Contractor's Association Training Center in Casper for the heavy-civil career day that was put on by Oftedal Construction. After a safety training, they were allowed to climb on heavy machinery, operate it and learn all about it.

Welding Instructors from Laramie County Community College (LCCC) came over earlier this month to show our students how to use their new outside welding rig! Students had a great time. We have two welders committed to LCCC and one still on the fence.

Certifications for high school students – Total earned this year: 63

17 OSHA Manufacturing Certifications, 8 OSHA Construction Certifications

10 ASE Certifications, 23 CPR Certifications

5 CNA Certifications, 1 testing in June

We also have 11 adults so far this year that have completed their CNA certifications and more that will be testing.

All graduation ceremonies were fantastic. LSRV Graduates graduated with 70 total credits, VHS with 6, and RHS with 690. The Western graduation was wonderful as well. Cory represented CCHEC at that ceremony.

The Jeep event at the fairgrounds raised over \$1,000 for our auto department. We are grateful to Cacey Daniels for reaching out and thinking of CCHEC for this. He is hoping to host an even bigger event next year.
