These policies are designed to enhance financial accountability and transparency, eliminate misunderstandings, and protect the assets and viability of Lee County. Key elements to achieving these objectives include:

- Sound fiscal policies and procedures
- Sound internal control policies and procedures
- Timely and accurate financial reports
- Effective use of information technology

Finance and Accounting Responsibilities

The Lee County Finance Committee is responsible for all financial activities and reporting requirements of Lee County, including providing financial information to the County Board and various regulatory agencies. It is also the responsibility of the Finance Committee and the Lee County Board to ensure sound accounting practices and internal controls.

The Finance Committee is also responsible for making financial policy recommendations to the Lee County Board for action. Once a policy has been approved by the County Board, it shall constitute an effective policy. Thereafter, any changes to a policy shall be required to go through the established review and approval process.

All accounting and financial policies contained within this document are all inclusive and supersede all previously adopted accounting and financial policies. Furthermore, any exception to a policy, which must be approved by the County Board, must be clearly documented and shall not in any way make the exception a policy.

Severability

The sections, paragraphs, sentences, clauses, and phrases of this Policy are severable, and if any section, paragraph, sentence, clause, or phrase of this Policy

shall be declared unconstitutional, invalid, or unenforceable by the valid judgment or decree of a court of competent jurisdiction, such unconstitutionality, invalidity, or unenforceability shall not affect any of the remaining sections, paragraphs, sentences, clauses, and phrases of this Policy.

Budget

Budget Preparation

Lee County Finance Committee shall prepare the annual budget and recommend it to the County Board for approval. All budgets shall be prepared on a zero-based budgeting system with sufficient detail to identify revenue and expenditures by department and type in accordance with the Lee County chart of accounts. The budget only shall contain income and expenses for projects, programs, and activities that are well defined and planned, and for which it is reasonable to project, with a relatively high degree of accuracy, the related income and expense.

Budget Amendments

From time to time the budget may be amended by the following approvals:

- Transfers up to and including \$25,000 from contingency funds to individual department operating budgets require County Finance Committee approval.
- Transfers greater than \$25,000 from contingency funds to individual department operating budgets require County Board approval by two-thirds vote.
- Transfers of personnel or capital expenses require County Board approval by two-thirds vote.
- Expenditures covered by unanticipated revenues, that may or may not be classified as grants, require County Finance Committee approval.

The department head shall be responsible for reviewing all bid forms.

If the bidder alleges a material error or mistake of fact, he may be permitted to withdraw the bid if the bidder submits evidence, which clearly and convincingly demonstrates that an error was made. Department head - Responsibility for Specifications. The department head shall issue, revise, maintain, and monitor specifications for goods, services, construction, and professional services required by the county, except that, specifications for any public work involving professional engineering shall be prepared by a professional engineer. The department head may use established bid specifications issued by named brand vendors. However, when doing so the department head shall issue notice within those specifications that any item or equipment that is like or equal to the name brand specifications shall be considered for award.

The highway department may prepare specifications for construction and maintenance of highways, bridges, and culverts pursuant to IDOT standards.

Parent Committee Role. The parent committee shall provide advice and assistance to the department head in the development of specifications.

Maximum practicable competition. All specifications shall be drafted to promote overall economy for the purposes intended and encourage competition in satisfying the county's needs and shall not be unduly restrictive. The policy applies to all specifications including those prepared for the county by architects, engineers, designers, and draftsmen.

Declaration of Non-Responsibility

Authority to issue a declaration of non-responsibility. After reasonable notice to the vendor involved and reasonable opportunity for that person to be heard, the Parent

Committee is authorized to declare a vendor non-responsible for purposes of supplying goods, services, construction, and professional services to the county. The declaration shall be in effect for a period of not more than two (2) years, for all solicitations. The causes for such a declaration include:

- Conviction for commission of a criminal offence as an incident to obtaining or attempting to obtain public or private contract or subcontract, or in the performance of such contract or subcontract.
- Conviction under state or federal statutes of embezzlement, theft, forgery, bribery, falsification, or destruction of records, receiving stolen property, or any other offenses indicating a lack of business integrity or business honesty which currently, seriously, and directly affects responsibility as a county contractor.
- Conviction under state or federal antitrust statutes arising out of the submission of bids or proposals.
- Violation of contract provisions, as set forth below, of a character regarded by the county department as evidencing non-responsibility:
 - Deliberate failure without good cause to perform in accordance with the specifications or within the time limit provided in the contract; or
 - A recent record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts; provided that failure to perform or unsatisfactory performance is not caused by acts beyond the control of the contractor.
 - Any other cause the department head determines to be so serious and compelling as to affect responsibility as a county contractor, including suspension by another governmental entity for any cause listed in this Ordinance.

Decision to declare non-responsible. The department head shall issue a written determination stating the reasons for the action taken and informing the affected vendor involved of his rights concerning administrative review. This shall not prevent the adversely affected vendor from appealing the department head's decision to the County Board pursuant to this Ordinance.

Notice of decision. A copy of the decision required by subsection (2) of this section shall be mailed by certified return receipt.

Finality of decision. A decision under subsection (2) of this section shall be final or conclusive, unless properly appealed pursuant to this Ordinance.

Appeals and Remedies

Authority of the county administrator to settle bid protests, contract claims, and declarations of non-responsibility subject to statutory provisions.

- Authority. The county administrator is authorized to resolve any procedural protest regarding the solicitation or award of any bid, contract claims, and declarations of non-responsibility under the county board's purview.
- Right to protest. Any actual or prospective bidder, offeror, or contractor who believes he has been adversely affected in connection with the solicitation or award of a contract (protesting entity) may, within ten (10) calendar days of the solicitation, bid opening or award, by mail, fax or have served, a letter of protest to the county administrator.
- Notice to the protestor of the county administrator's decision. If the protest or claim is not resolved by mutual agreement, the county administrator shall mail or otherwise furnish a written decision to the protestor within ten (10) calendar days from the date of receipt of the protest. The decision shall state the reasons for the decision reached, and it shall inform the protestor of his option to appeal under subsection (d) of this section.
- Protestor right to appeal. The county administrator's decision shall be final and conclusive unless, within ten (10) calendar days from the date of receipt of the decision, the protesting entity sends, via certified mail, the County Board Chairman a written appeal challenging the county administrator's decision. The County Board Chairman, with the consent and approval of the state's attorney, shall render a written decision no later than ten (10) calendar days after receiving the written appeal.
- Failure to render timely decision. In the event the county administrator does not issue a written decision within the specified time prescribed under subsection (d) of this section, or within such longer period as may be agreed upon between the parties, the protesting entity may proceed with an appeal to the County Board Chairman as if an adverse decision had been received.
- Delay of procurement during protest. In the event a protesting entity timely submits a protest under subsection (d) of this section, the county administrator shall determine whether it is in the county's best interest to proceed with the solicitation of the bid, bid opening, or award of the contract

Remedies for solicitations or awards in violation of law.

Prior to bid opening or closing date for receipt of proposals. Prior to award. If after bid opening or the closing date for receipt of proposals, the parent committee, after consultation with the state's attorney, determines that a solicitation or a proposed award of a contract is in violation of federal, state, or local law, then the solicitation or proposal award shall be canceled in accordance with this Ordinance.
