Jeanne and Liz – I will not be at the meeting tomorrow but wanted to offer something for the CBD discussion. Steve

### [Principles of Veterinary Medical Ethics of the AVMA](#)

*Principle I,c. Veterinarians shall not promote, sell, prescribe, dispense, or use secret remedies or any other product for which they do not know the ingredients*

**Proposed policy update re. the use of CBD and other unregulated products in practice.** Consistent with the AVMA POVME, the Board discourages the use of any product which does not include a complete and validated list of ingredients and proportions on the label. Any complications or negative outcomes related to the use of such products by or upon the recommendation or referral of a licensed veterinarian will be considered as any other complaint of medical malpractice.
